## **San Antonio directive on schools**

With today's [directive by the City of San Antonio](#) that prohibits face-to-face instruction in area K-12 schools until after Sept. 7, Our Lady of the Lake University (OLLU) is evaluating the situation and how it will impact the university schedule. Institutions of higher education are not included in the directive, but OLLU is seeking guidance from city and county leaders to assist with planning.

An update on university scheduling and planning will be provided within the next few weeks.
