Curriculum Reviewer for Accrediting Council for Continuing Education and Training (ACCET). ACCET provides institutional accreditation for its members, which are technical or vocational colleges.

I have served as part of on-site audit teams as a curriculum auditor. The on-site examination team visit is a fact-finding initiative on behalf of the Accrediting Commission. The Team's primary responsibility during the visit is to establish an objective comparative analysis of the institution's ASER and the operational characteristics relevant to each of the ACCET Document 2 – Standards for Accreditation, as demonstrated by actual practices. Team examiners seek to verify the accuracy and validity of the information and data contained in the ASER through inquiry, observation, and sampling techniques. Both administrative and educational activities are reviewed in the context of the ACCET standards, policies, and procedures.
