Field Education Assessment of Student by Field Instructor

Signature Pedagogy

In social work MSW Advanced (Concentration) programs, field education is “signature pedagogy,” and as such, the knowledge, skills and values learned throughout the student’s academic career must be evaluated. The Council on Social Work Education (CSWE)

identifies 9 core competencies and 31 corresponding practice behaviors that social work students are expected to demonstrate. The field education assessment of students allows Field Instructors to objectively measure the student's mastery of the required competencies and practice behaviors as specified in the student's education plan, which was developed at the beginning of the internship. The field education grade is Pass/Fail only. The ratings do not equate to the traditional letter grading scale. For additional guidance in completing this form, please contact your Worden School of Social Service Faculty Liaison or the Field Education Office.

Evaluation Process

The process of completing student performance assessment is undertaken by both the student and the Field Instructor. The Field Instructor completes this assessment and discusses it in supervision with the student. Students will be evaluated and rated by their Field Instructor during the middle of their field placement AND at the end of their field placement. Students will also complete a self-rating.

If a student receives a rating of “1” from the Field Instructor AT FINAL RATING, on any of the competencies or practice behavior the student fails field education.

If a student receives any ratings of “1” or “2”, at MIDTERM a Performance Improvement Plan is required to be completed by the Field Instructor and the Faculty Liaison.

If a student receives more than two ratings of “2” at FINAL RATING, a Performance Improvement Plan is required to be completed by the Field Instructor and the Faculty Liaison. The student fails field education.

Rating Scale:

Please use the scale below to rate the student's current competency. If a rating of one (1) or two (2) is assigned to any competency or behavior, please give the reason for the rating in the space provided at the end of the assessment. All items must be rated; NA is not an option.

- 4 = Exceeds Competency:** The student has demonstrated practice behaviors at a very high level and well above the expected level for generalist social work practice.
- 3 = Meets Competency:** The student has demonstrated practice behaviors at the expected level for generalist social work practice.
- 2 = Emerging Competency:** The student has performed unevenly; is unable to demonstrate practice behaviors at an expected level of competency for generalist social work practice, but there is indication of possible improvement.
- 1 = Below Competency:** The student has performed practice behaviors below the expected level for generalist social work practice, and despite opportunities to improve does not give indications that she or he will do so in the near future.
